

Why Chiropractic? People go to the Chiropractors for a variety of reasons. Some go for symptomatic relief of pain or discomfort (Relief Care). Others are interested in having the cause of the problem as well as the symptoms corrected and relieved (Corrective Care). Still others want whatever is malfunctioning in their bodies brought to the highest state of health possible with Chiropractic (Preventive Care). These are the three phases of care. Your doctor will weigh your needs and desires when recommending your schedule of care. However, his prepared recommendation is an incorporation of all three phases.

Please check the type of care desired so that we may be guided by your wishes whenever possible:
